Inclusive Skills Competition Guidance

Inclusive Skills competitions are an opportunity for young people with disabilities and learning difficulties to challenge, benchmark and raise their skills by taking part in competitions across a range of sectors.

The Inclusive Skills Competitions available in the 2023/2024 competition cycle include:

- Food Preparation
- Restaurant Service
- Media
- Automotive
- Hairdressing
- Woodworking
- Horticulture
- Childcare
- Health and Social Care
- ICT (Word Processing)
- Life Skills

Who are Inclusive Skills Competitions designed for?

Inclusive Skills Competitions are designed for learners with Additional Learning Needs (ALN).

A learner has ALN if he or she has a learning difficulty or disability which calls for additional learning provision (ALP). A person has a learning difficulty or disability if he or she:

- (a) has a significantly greater difficulty in learning than the majority of others of the same age, or
- (b) has a disability for the purposes of the Equality Act 2010 which prevents or hinders him or her from making use of facilities for education or training of a kind generally provided for others of the same age in mainstream maintained schools or mainstream institutions in the further education sector.

Learners with ALN may have difficulties in more than one area. Some examples include:

- Thinking, understanding and learning: where a learner finds all learning activities difficult, and/or has particular difficulties with some learning activities such as reading and spelling.

- Emotional and behavioural difficulties: learners may find it difficult to follow rules or settle down and behave properly.
- Speech, language and communication: learners may have difficulty in expressing themselves or understanding what others are saying to them.
- Physical or sensory difficulties: learners may have a disability or a medical condition that has an impact upon their learning.

What Level are the Inclusive Skills Competitions?

The entry criteria for each competition may vary, however the competitions are typically designed for learners working on entry level qualifications and, where applicable, working up to Level 1. For full entry requirements for each competition the competition brief should be read in conjunction with these guidance notes. A full list of entry criteria for all competitions is found [here](#).

What are the requirements for entering an Inclusive Skills Competition?

To enter an Inclusive Skills Competition the entrant must be able to provide proof of their ALN, disability and/or learning difficulty. This is supplied through the completion of a 'Statement of Support Needs' form.

Inclusive Skills competitors must also obtain parental/guardian consent to compete in Skills Competition Wales.

What is the 'Statement of Support Needs' form?

Entrants participating in Inclusive Skills Competitions will be required to submit a Statement of Support Needs in advance of the competition day. This document aims to provide valuable information to the competition lead on the needs and requirements of the competition entrant. This will allow, where necessary, for reasonable adjustments to be made.

The terms and conditions of entry should also be read in conjunction with the guidance provided in this document. These can be found at www.inspiringskills.gov.wales/terms-and-conditions
