Competition Brief

Competition Title

Light Vehicle Automotive Technology

Competition Overview

Light Vehicle Automotive Technicians require a wide variety of specialised skills. They carry out inspections and maintenance on cars and light vans, test vehicle systems and diagnose faults, as well as advise customers on repair work. They are responsible for producing estimates and maintaining service and maintenance records. Today's technicians use a range of equipment to assist them in their role, from advanced diagnostics to the more traditional spanner and wrench.

In this competition, competitors will be assessed on their skills, knowledge and abilities against current industry standards and working practices. They will need to demonstrate good time management, problem solving and planning skills, as well as prove their ability to collect and analyse information and apply logical techniques to solve problems.

Live competition heats will be held at various venues across Wales.

Entry Criteria

This competition is for those training for a career in the Automotive Industry and studying towards a Level 2 - 3 qualification or apprenticeship.

Please ensure your entrants have the skills and competencies to complete the task.

Entry capacity restrictions by organisation

Maximum of up to 2 per location that deliver the above level of qualification plus maximum of 2 reserves can be registered in case of absence.

This is the maximum number of entries permitted by an organisation for this competition.

This is determined by 'location' and 'organisation'. 'Organisation' refers to the competitors' training provider/employer. 'Location' refers to a site where the competitor studies / is employed. For further guidance on these capacities, click [here](#)

Brief

The Competition consists of five practical tasks in the areas below:
